Hoboken, NJ – June 16, 2011 - John Wiley & Sons, Inc. (NYSE: JWA and JWB), a global provider of content and workflow solutions in areas of scientific, technical, medical and scholarly research; professional and personal development; and education, today announced results for the fourth quarter and fiscal year 2011.

Fiscal Year

Revenue advanced 3% to \$1.74 billion, or 4% on a currency neutral basis. Adjusted EPS for the full year increased 12%, or 15% on a currency neutral basis, excluding a \$0.10 third quarter bad debt charge related to Borders and \$0.17 impairment and restructuring charges reported in the prior year. These growth rates include a \$0.07 non-cash deferred tax benefit related to a reduction in the UK statutory corporate tax rate. Revenue growth in all segments, lower debt financing costs and lower income tax rates drove results.

On a US GAAP reported basis EPS grew 16%, to \$2.80, or 19% excluding foreign exchange. For comparability to our full year guidance, adjusted EPS grew 10% excluding the charges in both years and the \$0.07 per share first quarter UK statutory tax benefit.

- **Segment Revenue Performance:** STMS +4%, P/T +1% and HE +7%, excluding FX
- **Free Cash Flow:** \$270 million, +25% over fiscal year 2010.
- **Net Debt:** \$252 million, down from \$495 million at end of fiscal year 2010 and \$720 million at end of fiscal year 2009
- **Share Repurchases:** Wiley repurchased 577,405 shares this year at an average price of approximately \$48 per share. The Wiley Board of Directors approved a 4-million share program in September 2010.
- **Dividend:** In June 2010, Wiley increased its dividend for the seventeenth consecutive year.

Shared service and administrative costs grew 7% for the year, driven by a 23% increase in technology spending to support investments in digital products and infrastructure that support all our businesses such as content management initiatives including eBooks and customer data/relationship management initiatives, in addition to business-specific initiatives such as Wiley Online Library to further drive our online journals business, online books and advertising and WileyPlus to support next-generation products and services.

Fourth Quarter

For the fourth quarter, revenue rose 2% to \$445 million, but fell slightly (-0.5%) on a currency neutral basis. Scientific, Technical, Medical and Scholarly (STMS) grew 3% or was flat on a currency neutral basis, primarily due to the acceleration of subscription contract agreements into the third quarter of fiscal year 2011 as reported previously. A strong performance in Higher Education (HE) was offset by softness in Professional/Trade (P/T) due to foregone sales related to Borders bankruptcy.

Earnings per share (EPS) was flat in the quarter, or down 5% on a currency neutral basis. Increased technology investment, professional fees and operating costs were partially offset by lower accrued incentive costs, lower effective tax rate and lower interest expense.

Management Commentary

“We are pleased to report another strong year,” said Stephen Smith, President and CEO. “The shift to digital continues to enhance all of our businesses, resulting in new revenue models, new opportunities in emerging markets, and margin and working capital improvements.”

Mr. Smith continued: “STMS continues to navigate well through a tight library and corporate budget environment, thanks to the outstanding quality of our content and relationships. Growth continues to come from new society partnerships, content licenses, emerging markets, and incremental business around our content.”

Said Mr. Smith: “Even with the Borders disruption, Professional/Trade showed year-over-year growth and positive trends. Borders had been projected to account for approximately 5% of our fiscal year 2011 P/T sales. Our multi-channel strategy, providing our customers with flexibility and choice about where and how to purchase our products and our deep reservoir of quality content continues to serve us well. Ebooks continue to show outstanding growth.”

“Higher Education had another strong year with growth and market share gains in all regions,” said Mr. Smith. “Gross margin continued its upward trend, increasing to 66.7% through the full year from 65.5% a year ago, reflecting increased sales of high margin digital products such as WileyPLUS and eBooks.”

Outlook

Mr. Smith concluded: “Moving forward, the ongoing shift to knowledge-based economies, robust demand for outcomes-based learning and worldwide investments in research and development are key drivers for us. Excluding foreign exchange, we expect mid-single digit revenue growth and EPS in a range from \$3.15 to \$3.20.

Foreign Exchange

The foregoing and following references to “currency neutral basis”, “excluding foreign exchange (FX)” and “performance basis” exclude the effect of foreign exchange transactions and translations. The weighted average foreign exchange translation rates reflected in Wiley’s income statement during fiscal year 2011 were approximately 1.56 Sterling and 1.33 Euro.

SCIENTIFIC, TECHNICAL, MEDICAL AND SCHOLARLY (STMS)

- *Fourth quarter revenue flat excluding FX, +4% full year*
- *Fourth quarter contribution to profit down 0.8%, +5% full year, excluding FX and prior year restructuring and impairment charges*
- *Calendar year 2011 journal subscription receipts showing approximately 3% growth with 95% of targeted full year business closed at April 30, 2011, as expected.*
- *Full year 2011 digital revenue at 59% of total STMS revenue*
- *Full year 2011 digital book revenue up 74% and now accounts for 16% of total book sales*

STMS revenue for the quarter was up 3% to \$287 million, or essentially flat excluding foreign exchange. The soft performance for the quarter was as expected as a result of approximately \$10 million of accelerated billings reported in Wiley’s third quarter. Due to improved processes for journal subscription licensing implemented for calendar year 2011, revenue for published journals was accelerated into the third quarter of fiscal year 2011. Excluding the timing issue, new journal subscriptions and new society business, backfile sales and Ebook revenue drove the results for the quarter.

Direct contribution to profit for the quarter grew 2% to \$131 million, or fell 1% excluding foreign exchange and a prior year \$0.8 million impairment/restructuring charge. Including the impairment and restructuring charge, direct contribution to profit for the quarter grew 3%, or was essentially flat excluding foreign exchange.

STMS revenue for the full year was up 1% to \$999 million, or 4% excluding foreign exchange. Top-line results were driven by increased journal subscriptions, new journal society business and digital book growth. Through April 2011, subscription receipts for calendar year 2011 grew approximately 3% over calendar year 2010. Direct contribution to profit for the twelve months, excluding last year's impairment/restructuring charges of \$15 million, rose 1%, or 5% excluding FX. Revenue growth and margin improvement due to outsourcing journal production and fulfillment was partially offset by higher operating costs from business growth. Including the impairment/restructuring charges, direct contribution grew 5%, or 9% on a currency neutral basis.

Full Year Digital Revenue

- Digital revenue was 59% of total STMS revenue
- Digital journal revenue was 81% of total journal revenue, up from 79% a year earlier
- Digital book revenue up 74% and now accounts for 16% of total book sales

- In the fourth quarter, we launched the Wiley Chinese Scholars Network (CSN). The CSN aims to support Chinese authors in the social sciences looking to publish their work in English-language journals.

PROFESSIONAL/TRADE (P/T)

- *Fourth quarter revenue down 4% excluding FX; up 1% full year*
- *Quarterly softness due to Borders' impact on consumer titles. Borders represented about 5% of projected P/T sales for fiscal year 2011. All other key customers showed growth.*
- *Fourth quarter contribution to profit down 2% excluding FX; up 5% full year, excluding the Borders bad debt charge in the third quarter*
- *Digital revenue at 10% of P/T overall. This is up from 7% in FY10.*
- *Fourth Quarter eBook revenue up 145% over prior year to \$9 million*
- *eBook revenue for the full year up 127% to \$23 million, or 5% of P/T revenue*

Fourth quarter P/T revenue fell 3% to \$110 million, or 4% on a currency neutral basis primarily due to the disruption caused by the Borders bankruptcy. Ebook grew 145% over prior year to \$9 million. Weakness in consumer titles mainly due to Border's issues and a strong fourth quarter of the prior year due to the initial publication of *Office 2010* titles were partially offset by strong growth in the business/finance category.

Direct contribution to profit fell 1% to \$24 million for the quarter, reflecting top line results mitigated by lower accrued incentive compensation.

P/T revenue for the full year grew 2% to \$437 million, or 1% on a currency neutral basis. Growth in business/finance and professional education was offset by lower consumer sales due to the Borders disruption. Excluding the Borders bad debt charge of \$9 million (\$6 million after-tax) in the third quarter, fiscal year 2011 direct contribution to profit increased 5% to \$105 million due to revenue growth and improved margins from higher eBook sales. On a reported basis, direct contribution to profit declined 5% to \$95 million.

- Digital revenue overall for the year was 10% of total P/T revenue, up from 7% in the prior year. Digital revenue includes ebooks, online advertising, and content licensing.
