Preface ix
Acknowledgments xiii

Part I: Getting Started 1

Chapter 1: Welcome to Your New Office 3
Introducing Office Applications: What Do They Do? 3
Starting Office Applications 4
Creating, Saving, and Closing Documents 4
 Creating documents 4
 Saving documents 6
 Closing documents 8
Working with Smart Tags and Task Panes 8
Using Office Search Effectively 9
Getting Help in Office Applications 12
 Using Help 12
 Working with the Help task pane 14
 Working with the Office Assistant 14
 Deactivating the Assistant 16
Summary 16

Chapter 2: Using Office's Menus and Toolbars 17
Creating Customized Menus and Toolbars 18
 Customizing toolbars 19
 Customizing menus 27
Will That Be Hidden, Docked, or Floating? 29
 Displaying and hiding toolbars 30
 Docking and floating toolbars 30
Summary 31

Part II: Using Word 33

Chapter 3: Creating and Working with Documents 35
Creating New Documents 35
Navigating in Word 37
 Using Find and Replace 39
 Using Go To 42
 The navigation tools 43

Word's Views	44
Normal view	45
Print Layout view	45
Reading Layout view	46
Web Layout view	48
Outline view	49
Web Page Preview	49
Print Preview	50
Word's Wizards	51
Using Word's AutoCorrect Features	54
AutoCorrect	54
AutoFormat As You Type	55
AutoText	57
AutoFormat	59
Smart Tags	59
AutoSummarize	59
Using Simple Macros	60
Saving: Format Options	62
Summary	63

Chapter 4: Working with Text 65

Entering, Selecting, and Editing Text	65
Editing text	66
Selecting text	66
Formatting Text	68
Formatting characters	68
Formatting paragraphs	75
Formatting pages	82
Formatting sections	84
Headers, Footers, and Page Numbers	86
Page numbering	88
Creating Footnotes	90
Printing	93
Summary	96

Chapter 5: Working with Tables 97

Creating Tables	97
The Table tool	97
Draw Table	98
Insert Table	98
Adding data	100
Editing and Formatting Tables	100
The Table menu	102
Using automatic formatting with tables	106
Other Table menu commands	108
Table Properties	110

Using Sort and Formulas	113
Using Sort	113
Using formulas	114
The Tables and Borders Toolbar	116
The Change Text Direction command	116
Using AutoSum	117
Summary	117

Chapter 6: Forms, Fields, and Merging 119

Using Fields	119
What can fields do?	120
Viewing fields	121
Inserting fields	122
Updating fields	124
Formatting fields	124
Using fields to perform calculations	125
Creating and Using Forms	126
The Forms toolbar	127
Inserting a form field	128
Protecting your form and fields	133
Using Mail Merge	133
The Mail Merge task pane	134
The Mail Merge toolbar	141
Summary	142

Chapter 7: Outlines, Tables of Contents, and Indexes 143

What Is an Outline?	143
Using Outline View	144
Creating and Modifying Outlines	145
Rearranging your outline	145
Using outline paragraph levels	146
Printing an outline	148
Building a Table of Contents	148
Creating and formatting a TOC	148
Keeping your TOC current	150
Building a Table of Figures	150
Building a Table of Authorities	151
Marking citations	151
Inserting your TOA	152
Creating an Index	153
Marking words and phrases	153
Using a concordance file	155
Building your index	155
Keeping your index current	156
Summary	156

Chapter 8: Styles and Templates	159
What Are Styles?	159
Types of styles	160
Saving style information	160
What Are Templates?	161
Applying Word's Built-in Styles	162
Applying a style with the task pane	162
Applying a style with a keyboard shortcut	164
Alternative ways to apply styles	164
Removing a style from text	165
Determining which styles have been applied	166
Creating Styles	168
Creating a style using dialog boxes	168
Creating a style by using an example	170
Modifying Styles	170
Modifying a style using dialog boxes	170
Modifying a style using an example	171
Copying, deleting, and renaming a style	172
Using the Style Gallery	173
Attaching a Template	174
Creating a new document with a template	175
Attaching a template to an existing document	175
Creating and Modifying Templates	176
Creating a template from scratch	176
Creating a template from an existing document	177
Modifying templates	177
Modifying the Normal Template	177
Summary	178
Chapter 9: Getting Graphical	181
Using Bulleted and Numbered Lists	181
Using the Formatting toolbar	181
Formatting your lists	183
Using Columns	186
Adding Borders and Shading	188
Adding a simple border	188
Adding borders to tables	189
Fine-tuning your borders	189
Adding shading	191
Inserting Pictures	192
Inserting a picture file	193
Inserting clip art	193
Inserting an image from a scanner or camera	195
Inserting AutoShapes	195
Inserting WordArt	197
Inserting a drawing	198
Summary	199

Chapter 10: Working with Others on Word Documents 201

Collaborating with Many Users on a Single Document	201
Inserting comments	202
Inserting voice comments	204
Inserting handwritten comments	205
Finding and working with comments	205
Tracking Changes in a Document	206
Tracking changes during editing	206
Using Versions	210
Saving versions	210
Working with earlier versions	211
Protecting Your Document	211
Ensuring document security with digital signatures	214
Using Master Documents	214
Creating master and subdocuments	215
Converting documents to subdocuments	215
Rearranging and editing subdocuments	215
Summary	217

Chapter 11: Using XML in Word 219

What Is XML?	219
Saving a Word Document in XML Format	221
Creating an XML File with a Schema	222
Adding a schema	222
The XML Structure task pane	224
Applying a schema to an existing document	226
Removing tags and changing attributes	226
Validating your document	227
About Smart Documents	228
Summary	228

Part III: Using Excel**231****Chapter 12: Worksheets and Workbooks 233**

Understanding Workbooks	233
Opening new workbooks	235
Opening existing workbooks	236
Working with Worksheets	237
Identifying rows and columns	237
Moving around the grid	238
Using the Go To command	240
Adding and deleting worksheets	241
Changing the default number of worksheets	242
Moving and copying worksheets	242
Renaming worksheets	244
Changing worksheet tab colors	244

Selecting and Using Ranges	245
Using Absolute and Relative References	246
Using absolute references	247
Using names	247
Saving and Closing a Workbook	248
Setting backups	249
Saving as a Web page	250
Finding Workbooks	252
Setting Workbook Properties	254
Summary	255

Chapter 13: Entering and Formatting Information 257

Entering Data	257
Creating data labels	258
Filling a series of labels automatically	260
Entering numbers, dates, and times	260
Editing Data	263
Copying, Moving, and Merging Cells	264
Copying cells	265
Moving cells	266
Merging cells	266
Adding Comments to Cells	268
Managing comments	269
Adding and Deleting Cells, Rows, and Columns	270
Adding cells	270
Deleting cells	271
Changing Column Widths and Row Heights	272
Changing column widths	272
Changing row heights	273
Resizing multiple rows and columns	274
Hiding and Unhiding Columns, Rows, and Gridlines	275
Hiding columns	275
Unhiding columns	275
Hiding rows	275
Hiding gridlines	275
Using AutoFormat	276
Applying AutoFormat	276
Customizing AutoFormat	277
Removing AutoFormat	278
Applying Fonts and Styles	278
Setting fonts for cells and ranges	279
Setting the size of fonts	279
Adding font attributes	280
Changing the default font	280
Aligning text horizontally	281
Fill alignment	283

Horizontal justification	283
Centering text across a selection	284
Aligning text vertically	284
Rotating text	285
Applying Borders, Patterns, and Colors	286
Applying borders	286
Applying patterns	288
Applying colors	290
Using Number, Date, and Time Formats	291
Using the Style dialog box	292
Other number formats	292
Date and time formats	293
Custom Formats	294
Custom number formats	294
Custom date and time formats	295
Creating custom formats	297
Summary	297
Chapter 14: Charts	299
Creating Charts with Chart Wizard	299
Understanding Chart Types	304
Modifying Charts	305
Changing chart types	306
Modifying and adding source data	306
Changing chart options	309
Changing titles	309
Changing axes	310
Changing gridlines	311
Changing legends	311
Changing data labels	312
Changing data tables	313
Relocating a chart	314
Adding trendlines	314
Formatting Charts	315
Handling 3-D Chart Views	316
Using the 3-D View dialog box	317
Using the “Corners” method	317
Enhancing Charts	318
Saving Custom Chart Formats	322
Summary	323
Chapter 15: Formulas and Functions	325
Working with Formulas	325
Creating a formula	326
Understanding operator precedence	327
Displaying and editing formulas	328

Copying and Moving Formulas	329
Copying via the toolbar or menu	330
Using the Paste Special command	330
Using the drag-and-drop method	331
Modifying how you copy	331
Using Range Names in Formulas	332
Using Arrays in Formulas	333
Understanding Functions	335
Inserting Functions	335
Using AutoSum	337
Using Other Automatic Functions	338
How averages work	339
Determining the maximum and minimum values	339
Counting numeric values	340
Using Links	340
Summary	342

Chapter 16: Lists and Databases 343

Understanding Lists and Databases	343
Defining lists	343
Records and fields	344
Working with Databases	345
Formatting labels	345
Creating a database	345
Entering and Editing Records	347
Using the data-entry form	348
Using keyboard entry	350
Data validation parameters	350
List, text length, and custom values	352
Error messages	353
Cell input messages	355
Sorting and Filtering Data	356
Sorting data	356
Filtering data	358
Subtotaling data	361
Using Excel Data in a Mail Merge	363
Summary	364

Chapter 17: Templates, Forms, and Graphics 365

Using Excel's Templates	365
Creating a Template	367
Determining the template type	368
Saving a workbook as a template	368
Creating your own template tab	369
Inserting custom worksheet templates	370

Creating Forms	371
Form controls	371
Using a control on a worksheet	373
Using macros with form controls	375
Protecting Worksheets and Workbooks	377
Unprotecting cells and other elements	377
Selectively protecting cells	378
Protecting worksheets	379
Protecting workbooks	381
Unprotecting worksheets and workbooks	382
Adding Graphics to Excel Worksheets	382
Importing images	383
Importing from the Clip Gallery	384
Importing from other storage media	386
Importing from digitizing devices	386
Adding AutoShapes	387
Using WordArt	390
Summary	393

Chapter 18: PivotTable and PivotChart Reports 395

Working with PivotTable Reports	395
Creating PivotTables	396
Understanding the PivotTable toolbar	401
Modifying PivotTables	402
Formatting PivotTables	404
Working with PivotChart Reports	406
Using PivotChart reports	406
Altering PivotCharts	407
Summary	408

Chapter 19: Using Excel to Analyze Data 411

Creating and Using Data Tables	411
Dealing with a fixed series of variables	411
Solving a sample problem	412
Using Goal Seek	414
How it works	414
Solving a sample problem	414
Using Solver	416
Installing the Solver add-in	416
Solving a sample problem	416
Circular References and Iteration	420
Circular references as errors	420
Using circular references	421
Using the Circular Reference toolbar	422
Summary	422

Chapter 20: Using XML in Excel 425

- What Is XML? 425
 - Looking at an XML file 426
 - How Excel uses XML 427
- Using XML Data Sources in Excel 427
- Saving XML Data in Excel 430
 - Exporting data in generic XML format 430
 - Saving an XML spreadsheet 432
- Excel and Smart Documents 434
- Summary 434

Part IV: Using Outlook 437

Chapter 21: Outlook Overview 439

- Working with Outlook Folders 439
 - Creating new folders 441
- Using the Navigation Pane 442
- Working with and Customizing Views 443
 - Switching views 445
 - Customizing views 445
 - Using the Field Chooser 449
 - Creating views from scratch 450
 - Assigning items to categories 451
- Using Outlook Today 451
- Configuring and Using Multiple Mail Accounts 452
 - Adding e-mail accounts 453
 - Modifying e-mail accounts 454
- Reading Messages 455
- Addressing and Sending Messages 455
 - Creating a new message from scratch 456
 - Spellchecking messages 459
- Saving Messages 459
- Printing Messages 460
 - Using Page Setup 460
- Deleting Messages 462
 - Recovering deleted messages 462
 - Permanently deleting messages 463
 - Automatically deleting when exiting Outlook 463
- Summary 463

Chapter 22: Advanced Message Management 465

- Organizing Messages with Search Folders 465
 - Creating a new Search Folder 466
 - Customizing a Search Folder 468
- Quick-flagging Messages 469

Creating Mail-Filtering Rules	470
Archiving Messages	472
Setting the frequency	473
Setting the AutoArchive delay	473
Exporting and Importing Messages	474
Exporting messages	475
Importing messages	476
Sending Business Cards	476
Using Signatures and Receipts	477
Creating a signature	477
Setting up message receipts	479
Attaching Files to Messages	480
Finding the Message You Want	481
Summary	483
Chapter 23: Outlook Security	485
Dealing with Junk E-mail	485
Using Outlook's junk e-mail filter	486
Using the Junk E-Mail Filter Lists	487
Turning Off Web Beacons	488
Outlook's Security Settings	489
Encrypted e-mail	490
Security zones	491
Digital IDs (certificates)	493
Why Can't I Open That?	493
Digital Signatures and Encryption	496
Permissions	497
E-mail Safety Tips	498
Summary	499
Chapter 24: Creating and Maintaining a Contact List	501
Adding a Contact	502
Importing Contacts	507
Opening and Editing a Contact	508
Viewing Your Contacts	509
Creating Groups	509
Creating Distribution Lists	510
Associating Contacts with Other Outlook Items	511
Mail-merging Outlook Contacts with Word	512
Introduction to Business Contact Manager	514
Summary	516
Chapter 25: Managing Your Time with Calendar	517
The Outlook Today View	517
Adding and Editing Your Own Tasks	520
Assigning a Task to Someone Else	521

Using Calendar	522
Creating and Managing Appointments and Events	524
Importing Appointments and Events	527
Sending Calendar Information to Other Users	528
Summary	529

Part V: Using PowerPoint

531

Chapter 26: Beginning a Presentation 533

Planning Great Presentations	533
The virtues of simplicity	534
Working with the PowerPoint User Interface	534
Choosing a Slide Layout	535
Using Slide Layout	536
Using Outlines to Plan and Organize	537
Creating an outline in PowerPoint	538
Adding subheads	538
Importing an outline	539
Reorganizing an outline	540
Formatting text within an outline	542
Navigating Through a Presentation	543
Summary	544

Chapter 27: Entering and Formatting Text 545

Entering and Editing Text	545
Entering text in the outline pane	545
Entering text in the slide pane	546
Editing text	548
Importing Text from Other Applications	549
Copying and pasting	549
Importing directly to PowerPoint	549
Editing imported text	550
Formatting Text	551
Font and size	551
Style	552
Alignment	552
Promoting and demoting heads	553
Bulleted and numbered lists	554
Spacing	554
Color	555
Other buttons on the toolbar	555
The Format menu	556
Summary	558

Chapter 28: Using Templates and Wizards 559

Using the AutoContent Wizard	559
Using the Slide Layout Task Pane	561
Exploring the available layouts	562
Changing an existing slide	563
Using Masters	565
Slide Master	565
Handout Master	567
Notes Master	569
Using Design Templates	571
Accessing the design templates	571
Choosing a slide layout	572
Modifying and applying the design templates	572
Creating and Saving Your Own Templates	573
Summary	574

Chapter 29: Creating Charts and Tables 575

Exploring Chart Types	575
Creating and Editing Charts	577
Editing charts	581
Formatting Charts	583
Formatting data series	583
Format plot or chart area	585
Format legend	585
Format category axis	585
Format value axis	585
Add a trendline	586
Mixed chart types	586
Saving custom charts	587
Creating an Organization Chart or Diagram	588
Inserting an Organization Chart	589
Inserting a diagram	591
Creating and Editing Tables	593
Creating a table	594
Editing a table	594
Inserting Excel Worksheets and Word Tables	595
Inserting an Excel worksheet	596
Adding a Word table	598
Summary	598

Chapter 30: Adding Graphics and Special Effects 599

Adding Pictures and Multimedia	599
Adding images	600
Adding an image from the Clip Organizer	601
Inserting a picture from a file	603

Inserting a Photo Album	603
Working with sound	606
Working with movies	607
Using Slide Transitions	608
Selecting the slides	608
Adding transitions	608
Using Animation Schemes	609
Applying an animation scheme	610
Applying custom animations	611
Creating Actions	612
Action buttons	612
Creating a sample action	614
Action settings	615
Summary	615

Chapter 31: Finalizing Your Slide Show 617

Creating a Slide Show	617
Rearranging the slide show	617
Hiding slides	618
Adding comments	619
Adding speaker notes	621
Handouts	622
Summary slides	623
Playing the Slide Show	624
Moving between slides	624
Writing on slides (annotations)	625
Setting up the slide show	626
Custom slide shows	629
Using Recorded Narration	630
Recording a narration	631
Re-recording narrations	632
Packaging Your Presentation for a CD	632
Options for Saving Your Presentation	634
Putting your presentation on the Web	634
Other file formats for saving presentations	637
Printing	638
Printing slides	638
Printing speaker notes	639
Printing handouts	640
Printing an outline	640
Printing files in Word	640
Broadcasting over the Internet or an Intranet	641
Setting up a presentation broadcast	642
Starting a presentation broadcast	643
Viewing a presentation broadcast	643
Summary	643

Chapter 32: Fine-Tuning Your Presentation	645
Practice Makes Perfect	645
Troubleshooting Your Slide Show	647
Ten Top PowerPoint Tips	648
1. How do I change an entire presentation's format?	649
2. How can I copy one object's format to several others?	650
3. Where on the Web can I find additional clip art, textures, sounds, and video?	650
4. How can I set the defaults for drawing objects?	650
5. How can I make a bulleted list show up one item at a time during my presentation?	652
6. What are comments and how do they work?	653
7. What is a summary slide?	654
8. How can I save a chart's design for future use?	654
9. How do I change one AutoShape into a different one?	655
10. How can I copy a complete presentation for use on another computer?	655
Summary	655

Part VI: Using Access

657

Chapter 33: Fundamentals of Access	659
Basic Database Concepts	659
Access tables	660
Access queries	661
Access forms	662
Access reports	663
Planning a Database	664
Look for organization	664
Reduce redundancy	665
Summary	666
Chapter 34: Creating a Database	667
Creating a New Database	667
Designing a new table	669
Creating a table with a wizard	672
Creating a table by entering data	675
Creating a Table by Importing or Linking	676
Adding and Editing Data	677
Changing the Appearance of a Table	678
Setting row heights	679
Setting column widths	679
Customizing datasheet properties	679

Customizing fonts	680
Moving fields	681
Hiding and unhiding columns	681
Freezing and unfreezing columns	682
Sorting Data	683
Adding an Index	683
Using a single field	683
Using multiple fields	684
Printing a Table	685
Exporting Table Data	685
Summary	687
Chapter 35: Working with Forms	689
Using AutoForm	689
The basic method	689
The advanced method	690
Choosing a layout	690
Using the Form Wizard	691
Designing a Form	695
The easy way	695
The hard way	695
Modifying a Form	697
Adding Controls to a Form	697
Discovering the Toolbox	698
Working with text boxes	699
Using control wizards	701
Summary	704
Chapter 36: Using Queries	705
How Queries Work	705
Creating and Editing Queries	706
Designing your own query	706
Editing a query	709
Using query criteria	709
Using Or with multiple fields	711
Using Queries to Modify Records	712
Changing original table values	712
Deleting groups of records	713
Changing groups of records by updating	715
Using the Query Wizards	716
The Simple Query Wizard	716
The Crosstab Query Wizard	719
The Find Duplicates Query Wizard	722
The Find Unmatched Query Wizard	725
Summary	728

Chapter 37: Generating Reports 729

- Types of Reports 729
- Using AutoReport 731
- Using the Report Wizard 732
- Creating Mailing Labels 737
- Designing Custom Reports 742
- Placing Controls in Reports 744
 - Bound and unbound text boxes 744
 - Creating calculated controls 745
 - Placing text boxes in reports 745
 - Using the Toolbox 746
- Creating Relational Reports 747
- Summary 750

Chapter 38: Access and XML 751

- What Is XML? 751
 - Looking at an XML file 752
 - How Access uses XML 753
- Importing XML Data 754
- Exporting Access Data as XML 756
- Summary 758

Part VII: Office and the Web 761

Chapter 39: Designing Web Sites with FrontPage 763

- What Is FrontPage? 763
 - The HyperText Markup Language (HTML) 764
 - Publishing Web pages 764
- Navigating Through FrontPage Views 764
- Creating a Web Site 766
 - Creating a new FrontPage Web site 767
 - Working with folders and files in Folders view 769
 - Designing your Web site's navigation structure 770
- Adding and Formatting Text 773
 - Getting text without typing 774
 - Editing text 774
 - Formatting text 775
 - Formatting paragraphs 775
- Using Tables for Layout Purposes 776
 - Defining table properties 777
 - Defining cell properties 778
 - Using FrontPage's new Table Layout tools 779
 - Using the Cell Formatting tools 781
 - Converting tables to text 782

Adding Graphics	783
Inserting pictures	783
Copying a picture	786
Saving graphics	786
Editing pictures in FrontPage	786
Changing image properties	787
Hyperlinks and Image Maps	789
Assigning links to text	789
Creating hyperlinks to existing pages and documents	790
Editing and removing hyperlinks	791
Creating image maps	791
Creating bookmarks	792
Inserting Special FrontPage Components	793
Inserting Web components	793
Inserting Forms	794
Experimenting with HTML	795
Summary	798
Chapter 40: Managing Your Web Site with FrontPage	799
Themes, Shared Borders, and Link Bars	799
Selecting and assigning a theme	799
Adding shared borders	801
Inserting and editing link bars	802
Customizing Themes	805
Modifying theme colors	805
Modifying theme graphics	807
Changing theme styles	808
Saving a custom theme	808
Organizing Office Documents into a Web Site	809
Generating Usage and Other Reports	810
Global Site Editing	812
Spellchecking your entire site	813
Tracking tasks for your entire site	813
Replacing throughout a site	815
Publishing Your Site	816
Getting More Information	819
Summary	820
Chapter 41: Creating Web Pages in Other Office Applications	821
Saving Documents as Web Pages	821
The role of XML	821
Previewing documents in your browser	822
Changing Web page titles	822
Setting Web page options	822
Making allowances for browser capabilities	823
Dealing with Office's automatic support folders	824
Saving Web pages as single files	825

Working with Hyperlinks	825
Jumping to specific locations in documents	826
Controlling the look of hyperlinks	828
Access and hyperlinks	830
PowerPoint and hyperlinks	831
About Graphics in Office-created Web Pages	832
Working with .gif and .jpg images	832
Saving graphics in .png format	832
Using vector graphics in Web pages	833
Editing HTML Code in Office	833
Web Page Authoring with Word	834
Basing new Web pages on templates	835
Editing Web pages in Word	836
Working with themes	838
Working with frames in Word	839
Web Presentations with PowerPoint	842
Saving a Web presentation	843
Editing a Web presentation	844
Creating Interactive Pages in Office	844
Publishing Spreadsheets on the Web	845
Choosing workbook elements to convert	846
Publishing interactive data	846
Database Publishing on the Net with Access	849
Exporting data to static Web pages	849
Creating server-side dynamic database pages	850
Working with data access pages	851
Publishing Your Web Pages	856
Summary	856

Part VIII: Collaborating in Office

859

Chapter 42: Building Integrated Documents 861

Inserting Objects from Other Applications	862
Copy and paste	862
Using the Insert Object command	863
Working with Embedded Objects	865
Working with Linked Objects	866
Moving and resizing linked objects	867
Editing and updating links	867
Using the Locked and Save picture options	868
Other Methods of Sharing Data	868
Sending a Word document to PowerPoint	868
Analyzing Access data in Excel	869
Publishing Access reports with Word	869
Merging Access data in Word	870
Sending a PowerPoint presentation to Word	871
Sharing Data with XML	872
Summary	873

Chapter 43: Universal Drawing and Graphics Features 875

Inserting and Editing Pictures	875
Inserting pictures	876
Managing clip art (and other content) with the Clip Organizer	876
Finding clips online	880
Inserting pictures from a scanner or camera	880
Modifying pictures	881
Drawing Your Own Art	883
Inserting basic shapes	884
Inserting AutoShapes	884
Moving, resizing, rotating, and duplicating graphics objects	887
Reshaping AutoShapes	888
Using the grid	889
Working with text boxes and callouts	890
Drawing and editing freehand shapes	893
WordArt: designer text	897
Adding a diagram	897
Working with color, line, and texture	898
Adding shadow and 3-D effects	900
Customizing shadow and 3-D effects	900
Organizing and aligning graphics	901
Formatting Objects: The Master Control Center	904
Using WordArt	906
Creating a WordArt object	906
Editing and formatting WordArt	908
Using Microsoft Equation Editor	910
Summary	911

Chapter 44: Using Microsoft Office Document**Imaging and Scanning 913**

Scanning Documents	913
Choosing a scanner	914
Managing presets	915
Opening and importing files	918
Viewing Documents	918
Using Optical Character Recognition (OCR)	920
Annotating Documents	921
Customizing Microsoft Office Document Imaging	922
Distributing Documents	924
Summary	924

Chapter 45: Using Microsoft Office Picture Manager 925

Adding Picture Shortcuts	925
Adding shortcuts to individual folders	926
Automatically locating pictures and adding shortcuts	928

- Editing Pictures 929
 - Renaming pictures 929
 - Cropping pictures 929
 - Using Rotate & Flip 932
 - Resize 932
- Touching Up Pictures 933
 - Auto Correct 933
 - Brightness & Contrast 934
 - Color 935
 - Red Eye 936
- Compressing Pictures 936
- Sharing Pictures 938
- Exporting Pictures 940
 - Choosing a location 940
 - Renaming your files 941
 - Choosing a file format 942
 - Resizing 942
- Saving Your Edited Pictures 943
- Printing 943
- Summary 944

Chapter 46: Collaborating on a Network 945

- Resource Sharing and Security 945
 - Setting file-sharing options when saving 945
 - Protecting documents 947
 - Using Information Rights Management tools 951
- Sharing Excel Workbooks 954
 - Creating a shared workbook 954
 - Reviewing changes 956
- Collaborating in PowerPoint 957
- Sharing Access Databases 959
 - Using passwords 959
 - Creating user and group accounts 960
 - Securing the database 962
 - Assigning permissions 962
 - Encryption 963
- Distributing Office Documents 963
 - Sharing documents via e-mail 964
- Summary 966

Chapter 47: Windows SharePoint Services with Office System . . . 969

- Working with SharePoint Sites and SharePoint Lists 970
 - Accessing SharePoint Services sites 970
 - Windows SharePoint Services site permissions 973
 - Exploring the Windows SharePoint Services site 974

Adding items to existing lists	975
Creating new Windows SharePoint Services lists and libraries	977
Working with Datasheet views and linking lists to Excel and Access	978
Collaborative Document Authoring	984
Exploring Document Libraries and Shared Workspaces	985
Creating Shared Workspaces	988
Working with Shared Workspaces inside Office 2003 applications	990
SharePoint as a Central Contacts and Calendar Server	998
Making SharePoint contacts available to Outlook	1000
Conducting an Online Meeting with the Meeting Workspace	1002
Summary	1004

Part IX: Customizing and Automating Office 1007

Chapter 48: Customizing Office Applications 1009

Customizing Tips for Word	1009
Using the entire screen in Full Screen view	1010
Customizing tips for special screen situations	1012
Customizing Outlook	1014
Changing preferences	1015
Other options	1016
Customizing forms	1017
Customizing Excel	1020
Startup options	1020
Setting Excel options	1021
Customizing the screen	1022
Working with the color palette	1023
Using Full Screen view	1023
Storing a view of the current workbook	1024
Customizing PowerPoint	1024
Customizing Access	1026
Summary	1027

Chapter 49: Working with Macros 1029

Recording Macros	1029
Recording a macro in Excel	1030
Recording macros in other applications	1031
Running a macro	1032
Assigning Macros to Keyboard Combinations, Toolbars, and Menus	1033
Assigning macros to shortcut keys	1033
Assigning macros to toolbars and menus	1035

Using Macros in Access	1037
Creating an Access macro	1038
Creating macro groups	1039
Running an Access macro	1039
Introduction to Visual Basic for Applications	1041
Summary	1042
Appendix A: What's on the CD-ROM	1045
Appendix B: Optimizing Your Office Installation	1055
Appendix C: International Support and Accessibility Features	1059
Appendix D: Finding Office Information on the Web	1067
Index.	1071
