What did members say?

What did potential members say?

Knowing your community is key to providing a valuable membership. Understanding how they engage, and how potential members want to engage, will help inform the evolution of your membership offerings.

About Wiley:

Research drives a brighter future. At Wiley, we believe that scientific and academic solutions are shaping this future. Wiley is a global leader in providing content and expertise through online-inclusive learning solutions and subscription-based journals. We work with researchers, scholars, and educators worldwide to help advance your mission. From providing a platform of trusted content to access to a global community of researchers, we are dedicated to empowering you and your users to effectively build a sustainable future.

We consider the ethical, legal, and technological implications that are at the core of the business world, with a focus on the implications of technology, society, and consumers.

Analysts at the Wiley-Society Advisory Board work with present yourselves as thought leaders.
