The Wiley Handbook of Cognitive Behavioral Therapy

The three volumes of this major new reference work provide the worldwide community of researchers and practitioners in cognitive behavioral therapy with an authoritative resource of lasting value. Its unrivalled breadth of coverage includes an inclusive survey of CBT’s various strategies, followed by two full volumes of clinical applications. The latter features detailed guidance on treating a multitude of mental disorders.

- Unrivalled coverage of CBT approaches to a full spectrum of mental disorders
- Contributors include many of the field’s leading experts
- Covers the full range of CBT strategies, including new developments in the field, such as attention retaining strategies, acceptance techniques, mindfulness meditation, and disorder-specific emotion regulation skills
- Practical guidance backed by a wealth of case studies
- Includes the latest techniques and empirical data

Providing the CBT community with an authoritative resource of lasting value

A stellar group of international specialists teams up for
**The Wiley Handbook of Cognitive Behavioral Therapy**

**About the Editor**

Stefan G. Hofmann is Professor of Psychology in the Department of Psychology at Boston University, USA, where he is Director of the Psychotherapy and Emotion Research Laboratory. His core research focuses on the mechanics of applying developments in treatment, on generating clinical applications from discoveries in neuroscience, on strategies for emotion regulation, and on cultural manifestations of psychopathology such as social anxiety disorder. Professor Hofmann is the author of more than 200 scientific publications and 15 books, including *Cognitive Behavior Therapy of Social Anxiety Disorder: Evidence-Based and Disorder-Specific Treatment Techniques* (2008, co-authored with Michael W. Otto). In addition to his editorial work for *Cognitive Therapy and Research* and the *Journal of Consulting and Clinical Psychology*, Professor Hofmann is President of the Association of ABCT and IACP, and a board member of the Academy of Cognitive Therapy.

**Volume Editors**

**Volume 1**

David J. A. Dozois, PhD, is Professor of Psychology at The University of Western Ontario. He is a Fellow of the Canadian Psychological Association (CPA), Section on Clinical Psychology and the Academy of Cognitive Therapy and a former Beck Institute Scholar at the Beck Institute for Cognitive Therapy and Research. Dr. Dozois’ research focuses on cognitive vulnerability to depression and cognitive–behavioral theories/therapy. He has published 124 peer-reviewed articles, book chapters and co-edited books, and presented over 250 papers at national and international conferences. Dr. Dozois has received career awards from the Canadian Psychological Association, the University of Western Ontario, the Canadian Institutes of Health Research, the National Alliance for Research on Schizophrenia and Depression, and the Ontario Mental Health Foundation. Dr. Dozois has served for many years on the board of directors of the CPA, serving as President in 2011-12. In addition to his scholarly and administrative work, Dr. Dozois maintains a small private practice focused primarily on adults with anxiety and depression.

**Volume 2**

Winfried Rief is Professor of Clinical Psychology and Psychotherapy, Philipps University of Marburg, Germany. Head of the Clinic for Psychological Interventions, Dr. Rief worked for many years in hospital settings (e.g., Roseneck Hospital for Psychosomatic Medicine, Prien a. Ch.). He is specialized in placebo- and nocebo effects, perception and coping with somatic symptoms, optimization of clinical studies and interventions. He was guest professor at Harvard Medical School, Boston (2004/2005), University of Auckland Medical School (2002), and University of California San Diego (2009/2010). Additionally, he was nominated for the expert committee of WHO/APA for the revision of the classification of mental disorders according to DSM-V. Dr. Rief is elected coordinator for grant applications to the German Research Foundation and he is spokesperson of the DFG-research unit on placebo and nocebo mechanisms. His publication record summarizes more than 300 articles, and he is a world-leading expert in the field of behavioral medicine and somatoform disorders.

**Volume 3**

Jasper Smits received his Ph.D. in clinical psychology from the University of Texas at Austin and completed his internship at Harvard Medical School/Massachusetts General Hospital. He is currently Associate Professor of Psychology and Director of the Anxiety Research and Treatment Program at Southern Methodist University. Dr. Smits’ research focuses on the treatment for anxiety and related disorders. He is particularly interested in the development of strategies that can augment cognitive and behavioral interventions for these conditions. He is a federally funded investigator and has published over 100 articles, chapters and books spanning his research interests. Dr. Smits serves as associate editor for *Journal of Consulting and Clinical Psychology* and *Clinical Therapy and Research* and as consulting editor for *Behavior Research and Therapy, Clinical Psychological Science, Cognitive Behaviour Therapy, Depression and Anxiety, and TheScientificWorldJOURNAL*. He also is a member of the scientific council of the Anxiety and Depression Association of America.

A full list of contributors is available at [www.cbthandbook.com](http://www.cbthandbook.com)
The Wiley Handbook on the Development of Children's Memory
Edited by Patricia Bauer & Robyn Fivush
September 2013 • 1,120 pages
Hardcover
Special price for print set: US$350
Valid until January 31, 2014 (List price US$400)
Exploring the importance of a developmental perspective on the study of memory, this wide-ranging two-volume Handbook represents the first volume in which critical topics in memory development are covered from multiple perspectives, from infancy through adolescence. The 44 chapters are written by experienced researchers who have influenced the field.

The Wiley Handbook of Mindfulness
Edited by Amanda Ie, Christelle T. Ngoumen & Ellen J. Langer
February 2014 • 1,232 pages
Hardcover
Print ISBN: 978-1-118-29487-1
Special price for print set: US$350
Valid until May 31, 2014 (List price US$400)
This Handbook brings together the latest multi-disciplinary research on mindfulness from a group of international scholars. The essays here examine these two dominant approaches to Western mindfulness — social psychological and Eastern-derived — in order to compare, contrast, and integrate insights from the two perspectives. The contributors also discuss the implications for mindfulness across a range of fields.

The Wiley Handbook of Anxiety Disorders
Edited by Paul Emmelkamp & Thomas Ehring
February 2014 • 1,464 pages
Hardcover
Print ISBN: 978-1-118-77535-6
Online ISBN: 978-1-118-77534-9
Special price for print set: US$350
Valid until May 31, 2014 (List price US$400)
This state-of-the-art Handbook on the research and treatment of anxiety and related disorders is the most clinically-oriented reference work currently available. It offers a truly international aspect, encompassing a broad network of clinically oriented researchers, from leading experts in the field of anxiety disorders to rising stars in the field, and covering issues of global — not just Western — relevance.
