Proven quality and breadth in Computer Science

Wiley publishes a range of journals across Computer Science and Information Systems areas including computer graphics, software evolution, education, intelligent systems, mobile computing, security and more. Many of these journals have been established for over a quarter of a century, and all are ISI ranked and rigorously peer-reviewed to ensure the highest quality. Stand-out titles include Software Practice & Experience, Journal of the Association for Information Science & Technology and Computer-Aided Civil & Infrastructure Engineering.
