Open Access

Wiley is committed to developing products and services to meet the needs of the scholarly community and support author choice. In partnership with our society and journal partners, we offer the following open access options to complement our subscription publishing:

**Wiley Open Access** is a program of fully open access journals. All research articles published in Wiley Open Access journals are immediately freely available to read, download and share. The fully open access journals are published in collaboration with authoritative journals and societies as well as supported by internationally renowned editorial board members.

**Online Open** is Wiley’s hybrid open access option available on over 1300 journals. This publishing model is available to authors who wish to make their article freely available to all on Wiley Online Library. Wiley will also submit OnlineOpen articles in PubMed Central and PMC mirror sites.
Wiley Online Library

Wiley Online Library hosts an extensive collection of journals, books, reference works, databases and WIRES. These online resources provide a seamless solution for libraries and institutions, allowing academics, students, researchers and professionals access to multi-disciplinary content on a single platform.

New features

**Anywhere Article** offers a seamless reading experience on your digital gadgets. The text in each journal article is formatted to the device screen, providing optimal reading, along with:
- No clutter
- Easy access to key information
- Easy navigation within figures and across figures in the article

**Altmetrics** allows for tracking of article mentions on social media. The real-time data tracking capability allow authors and readers to:
- Explore online conversations surrounding the content
- Identify papers with the greatest community interest
