Smith, Currie & Hancock's Common Sense Construction Law is a guide for non-lawyers, presenting a practical introduction to the significant legal topics and questions affecting the construction industry. Now in its fifth edition, this useful guide has been updated to reflect the most current developments in the field, with new information on Public Private Partnerships, international construction projects, and more. Readers will find full guidance toward the new forms being produced by the AIA, AGC, and EJCDC, including a full review, comparison to the old forms, areas of concern, and advice for transitioning to the new forms. The companion website features samples of these documents for ease of reference, and end of chapter summaries and checklists help readers make use of the concepts in practice. The updated instructor support material includes scenario exercises, sample curriculum, student problems, and notes highlighting the key points student responses should contain.

Hallmark Features

- Complete update of a best-selling text with coverage of the industry-standard contract documents produced by the AIA, AGC, EJCDC and others.

- Includes a website featuring sample contracts and documents from AIA, AGC, and EJCDC to give readers better familiarity with these important documents, and aid in understanding document citations in the book.

- New chapter on Public Private Partnership (P3) Projects, an emerging model for financing large scale projects.

- New chapter on international construction projects, important as US firms pursue work overseas.

- Helpful "points to remember" summarize important concepts at the end of each chapter, and useful checklists help in making use of the concepts in practice.

- Updated instructor support material -- scenario exercise materials, sample course curriculum, student problems for each chapter along with notes highlighting the key points professors should look for in the students response.
Resources and Support

Wiley Faculty Network

The Wiley Faculty Network partners with researchers and faculty to provide the support and expertise you need to design your online course and enhance your instructional efficiency. Connect with one of 80+ Wiley Faculty Network Mentors and attend Online Events and Info Sessions to receive insight and guidance that is tailored to your needs at www.WhereFacultyConnect.com.

Instructor Resources

Updated instructor support material -- scenario exercise materials, sample course curriculum, student problems for each chapter along with notes highlighting the key points professors should look for in the students response.
