Scope
Chemistry – An Asian Journal has been published monthly from mid-2006 as a sister journal of Chemistry – An Asian Journal and Angewandte Chemie. The journal is guaranteed to become an international high-impact journal for chemistry in its broadest sense.

Chemistry – An Asian Journal
- covers all aspects of chemistry from biochemistry through organic and inorganic chemistry to physical chemistry, including interdisciplinary topics.
- publishes Full Papers and Focus Reviews.

A professional editorial team headed by Dr. Peter Göltz (also Editor of Angewandte Chemie) and an Editorial Board (headed by Professor Ryoji Noyori, Nobel Laureate) ensure a high-quality peer-review process, content, and production of the journal.
