Chapter 12: Liver Transplantation

Evaluation of the Donor Liver

Harvesting (Preservation) Injury

**Acute Graft Failure (Primary Non-Function)**

**Rejection, Antibody Mediated (Humoral)**

**Rejection, Acute Cellular**

**Rejection, Chronic Ductopenic**

**Post-Transplant Complications**

**Infections: Bacterial, Fungal**

**Infections: Cytomegalovirus, Herpes Simplex Virus**

Post-Transplant EBV and Non-EBV-Related Lymphoproliferative Disorder

Bile Duct Complications, Strictures

### Hepatic Artery Thrombosis

### Post-Transplant Recurrent Disease

#### Viral Hepatitis (HBV, HCV)

**Cholestatic Liver Disease, Primary Biliary Cirrhosis**

**Cholestatic Liver Disease, Primary Sclerosing Cholangitis**

**Autoimmune Hepatitis**

Duclos-Vallee JC, Sebagh M. Recurrence of autoimmune disease, primary sclerosing
