

The Royal Marsden Manual of Clinical Nursing Procedures

Online Edition • Tenth Edition

Excellence in nursing care

We are pleased to confirm your hospital now has online access to The Royal Marsden Manual of Clinical Nursing Procedures - one of the world's most popular resources on clinical skills and procedures for nurses and the brand new Cancer Manual!

Key features for nurses

The Royal Marsden Manual provides detailed procedure guidelines based on the latest research findings and expert clinical advice, helping you to deliver clinically effective patient-focused care. Highlights include:

- Flexible access - designed for smartphones, tablets and desktops – giving you access to content wherever suits you best
- Search function - a brand-new search engine to find procedures faster than ever before
- Can support you through the revalidation process
- Brand new videos clearly showing step by step procedures
- Includes access to both the Professional Edition and the brand new Cancer Manual

Funded by NHS England, free to all NHS staff and trainees in England

Using The Royal Marsden Manual Online

Access via:

- Shibboleth
- Referrer URL - check your intranet
- OpenAthens

Trouble logging in?

Please contact your library for full details

Search:

- Once logged in you can use the search box to look for your procedure or topic OR you can click on procedures, chapters or illustrations and you will see a full list which you can click on
- There are more than 250 clinical procedures within the manual. Each procedure gives you step-by-step instructions on actions that need to be taken with the patient, plus any equipment needed. One of the great features is you can also see the rationale - why you're doing what you're doing

Revalidation Process:

Need help with revalidation? To help nursing staff through the Revalidation process using The Royal Marsden Manual Online we worked with the authors of the manual - who are nurses themselves at The Royal Marsden - and put together a webinar for you all to view and share with your teams. They go through case studies to provide nurses with ideas - please sign up here to view - www.workcast.com/register?cpak=8601947855628467
