“*The Royal Marsden Manual Online* is an accessible and user-friendly tool that has been a huge asset to our organisation. It has provided a central resource that has been pivotal in the orientation and training of new and overseas nurses. It provides evidence-based support at your fingertips. This resource isn't only for nurses; many junior doctors and medical students regularly refer to it for step-by-step tips on practical procedures they are learning to master!”

Sian Collier-Jones, Chief Nursing Office,
MedCare Hospitals and Medical Centres, UAE

“*The Royal Marsden Manual Online* underpins all of the care we provide at Saint Michael's Hospice. We have used this invaluable resource to create evidence-based competency assessments for both our nursing team and the Healthcare assistants, too. The Royal Marsden online manual allows our care team to feel confident that our standards of care are outstanding at all times.”

Steve Lawman, Deputy Head of Inpatient Services,
St Michael's Hospice

Gabrielle Tilley, Education and Development
Manager, Warminster Hospital

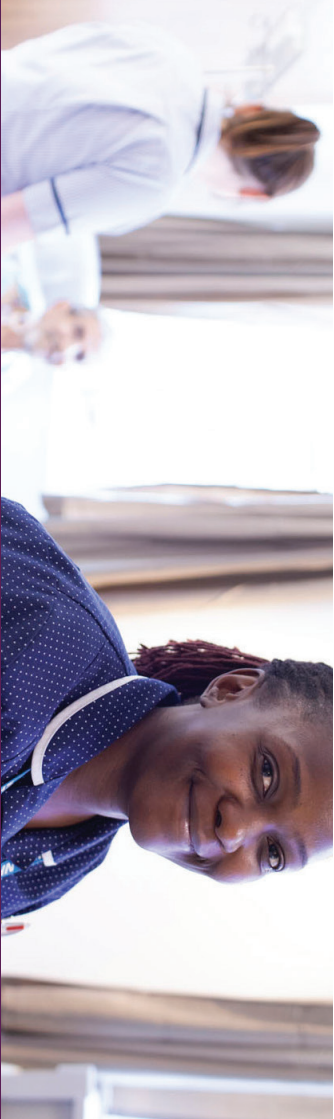

“At Wiltshire Health and Care, we use the online version of the Royal Marsden Manual, as it is accessible to all our clinical staff who work across a wide geographical area as community nurses. We have referenced the *Royal Marsden Manual* now in all our clinical skills training. The link for the *Royal Marsden online* is also on our intranet pages for ease of access to all our clinical staff. Use of the *Royal Marsden Manual* has enabled us to standardise our practice across all our clinical areas and supported the writing of clinical competencies. A very worthwhile resource.”

The Royal Marsden Manual Online is the definitive web-based solution for all hospitals, medical schools, care homes and hospices. The Manual has been providing essential nursing knowledge and up-to-date information on nursing skills and procedures for over 30 years.
