### DESCRIPTION

Caroline Bowen's *Children's Speech Sound Disorders* will be welcomed by experienced and novice clinicians, clinical educators, and students in the field of speech-language pathology/speech and language therapy for its practical, clinical focus. Drawing on the evidence base where possible, and making important theory to practice links overt, Bowen enhances her comprehensive account of assessment and clinical management of children with protracted or problematic speech development, with the addition of forty nine expert essays. These unique contributions are authored by fifty one internationally respected academicians, clinicians, researchers and thinkers representing a range of work settings, expertise, paradigms and theoretical orientations. In response to frequently asked questions about *their* work they address key theoretical, assessment, intervention, and service delivery issues.

### ABOUT THE AUTHOR

**Caroline Bowen**, Speech-Language Pathologist, lives and works in the Blue Mountains outside Sydney, Australia, and serves as an Honorary Associate in Linguistics at Macquarie University. In a long, uninterrupted career her workload has developed into an enjoyable mix of clinical practice, research and writing. Current interests include child speech, family centred practice, clinical applications of information and communication technology, and being on both the giving and receiving end of continuing professional education. Her sprawling, content-rich web site, [www.speech-language-therapy.com](http://www.speech-language-therapy.com), is a resource recognised by speech-language professionals and their charges the world over.
