Paperback  ISBN: 978-1-118-75713-0  July 2013  CAD $54.95

DESCRIPTION

This case study book is designed to provide students with the opportunity to work through various audit procedures that are performed during the planning and interim phases of a financial statement audit. Typical client scenarios that are regularly observed in the profession are the basis for this case study, and the aim is to expose students to the tasks they would typically perform in their first year of auditing practice.
