The IT Value Stack: A Boardroom Guide to IT Leadership
Ade McCormack

**DESCRIPTION**

Value-driven IT focuses on how organisations can get the best value from their IT Investment. A program that involves the board and the business, the book also provides guidance and tools to carry out the exercise.

**ABOUT THE AUTHOR**

Ade McCormack has over twenty years experience in the business-IT space. He is also a public speaker and coach. Ade has a column in the Financial Times advising business leaders on business-IT issues. He is also author of the acclaimed book – IT Demystified.

An astrophysicist by training, he entered the IT industry as a real-time embedded software engineer. Through Brownian motion his career recoiled into project management. Today he focuses more on people development, advisory, writing and public speaking in the IT value realisation space. Ade is married with one son and lives in the Chilterns in England. His interests include road/cross-country running and French jive, the latter being a form of dance which Ade has single handedly, and perhaps inadvertently, evolved into a martial art.
