### DESCRIPTION

*Computer Graphics Forum* is the leading journal for in-depth technical articles on computer graphics. The rapid publication of articles allows readers to keep up to date with new debates and topics of research. The journal features a lively mix of original research, computer graphics applications, conference reports, state-of-the-art surveys and workshops.

*Computer Graphics Forum* is published 8 times per year, consisting of: three regular issues; the annual Eurographics Conference proceedings; and the proceedings from four selected Symposia. This provides subscribers with unequalled coverage of some of the major international events in computer graphics.
