DESCRIPTION

Dym, Little and Orwin's *Engineering Design: A Project-Based Introduction, 4th Edition* gets students actively involved with conceptual design methods and project management tools. The book helps students acquire design skills as they experience the activity of design by doing design projects. It is equally suitable for use in project-based first-year courses, formal engineering design courses, and capstone project courses.

ABOUT THE AUTHOR

Clive Dym was a professor emeritus of Engineering Design and also Director of the Center for Design Education at Harvey Mudd College. He served as the chair of the engineering department at Harvey Mudd College from 1999 through 2002.
