DESCRIPTION

Human factors relates to the interaction of humans and technical systems. Human factors engineering analyzes tasks, considering the components in relation to a number of factors focusing particularly on human interactions and the interface between people working within systems. This book will help instructors teach the topic of human factors.

ABOUT THE AUTHOR

The Advanced Life Support Group (ALSG), Manchester UK, began life in 1990 and became a registered medical education charity in 1993. The organisation exists to "preserve life by providing training and education to the general public and in particular but not exclusively to doctors, nurses and other members of the medical profession, in life saving techniques". The book is written and edited by Emergency Medicine specialists who are Advanced Life Support Group (ALSG) trainers.
