DESCRIPTION

HANDBOOK OF DIABETES

The Handbook of Diabetes provides concise and efficient coverage of the diagnosis, epidemiology, and management of diabetes and its complications. Containing hundreds of attractive colour diagrams, illustrations, and clinical photographs, this popular quick-reference guide focuses on the management and measurement of diabetes mellitus with highly visual references.

Now in its fifth edition, this market-leading book aligns with the most recent guidelines from the American Diabetes Association (ADA), the European Association for the Study of Diabetes (EASD), Diabetes UK, and the National Institute for Health and Care Excellence (NICE), presenting authoritative clinical coverage of diabetes in an accessible format with rich pedagogical features.

• Five new chapters provide detailed coverage of liver disease, diabetes education, bariatric surgery, diabetes and cancer, and the use of incretin-based therapies and SGLT2 Inhibitors in the management of Type II diabetes

• Updated and expanded topics include the relation between hypoglycaemia and dementia, anxiety and depression, the NICE Quality and Outcomes Framework (QOF), and the impacts of diabetes to self-care, mental health, and decision-making

• Provides a wealth of pedagogical features such as vignettes and case histories, important learning points, summaries of key clinical trials, and links to further readings

Handbook of Diabetes, remains the essential practical companion for all health professionals involved in managing patients with diabetes, and an up-to-date reference for diabetes and endocrinology researchers, scientists, and academics.
ABOUT THE AUTHOR

Professor Rudy Bilous is currently Professor of Clinical Medicine and Clinical Sub-Dean for undergraduate studies on Teesside for the University of Newcastle. He is also Honorary Consultant in Diabetes and Endocrinology with a particular interest in diabetic nephropathy and diabetic pregnancy. Prof Bilous has done a large amount of research in the area of glycaemic control and diabetic nephropathy and latterly in a greater understanding of the relationship between kidney structure and function in diabetic kidney disease. Rudy is the lead diabetologist for the medical obstetric service. In addition to the Handbook of Diabetes, he is author of the following books: The British Medical Association Family Guide to Diabetes; Diabetes and Understanding Diabetes

Professor Richard M. Donnelly is Head, School of Graduate Entry Medicine and Health at The Medical School, Derby City General Hospital. He has had 175 articles published and is the author of the following books: ABC of Vascular Diabetes, ABC of Arterial and Venous Disease, Vascular Complications of Diabetes: Current Issues in Pathogenesis and Treatment
