Description:

*Person-Centred Healthcare Research* provides an innovative and novel approach to exploring a range of research designs and methodological approaches aimed at investigating person-centred healthcare practice within and across healthcare disciplines.

With contributions from internationally renowned experts in the field, this engaging resource challenges existing R&D methodologies and their relevance to advancing person-centred knowledge generation, dissemination, translation, implementation and use. It also explores new developments in research methods and practices that open up new avenues for advancing the field of person-centred practice.

*Person-Centred Healthcare Research*:

- Enables students, practitioners, managers and researchers to gain a solid understanding of the complexity of person-centred thinking in research designs and methods.

- Explores the theories and practices underpinning a topical subject within current healthcare practice.

- Is edited by an internationally recognised team who are at the forefront of person-centred healthcare research.
ABOUT THE AUTHOR

Brendan McCormack is Professor and Head of the Division of Nursing; Associate Director of the Centre for Person-Centred Practice Research at the School of Health Sciences, Queen Margaret University, Edinburgh, Scotland, UK; and Professor II, University College of Southeast Norway, Drammen, Norway.
