

Classical Geometry: Euclidean, Transformational, Inversive, and Projective Set

I. E. Leonard, J. E. Lewis, A. C. F. Liu, G. W. Tokarsky

Hardcover

ISBN: 978-1-118-90367-4

August 2014

\$125.95

DESCRIPTION

The combination text and Student Solutions Manual that features the classical themes of geometry with plentiful applications

Accessible and reader-friendly, *Classical Geometry: Euclidean, Transformational, Inversive, and Projective* and the companion *Student Solutions Manual* introduces a valuable discipline that is crucial to understanding both spatial relationships and logical reasoning. Focusing on the development of geometric intuition while avoiding the axiomatic method, a problem solving approach is encouraged throughout. The books address Euclidean geometry, Euclidean transformations, and inversive and projective geometry.

SET COMPONENTS

Classical Geometry: Euclidean, Transformational, Inversive, and Projective
