Hair Loss Disorders in Domestic Animals
Lars Mecklenburg (Editor), Monika Linek (Editor), Desmond J. Tobin (Editor)

DESCRIPTION

Hair Loss Disorders in Domestic Animals is an in-depth reference on the pathomechanisms and clinical approaches of all skin diseases in domestic animals that have hair loss as the predominant clinical feature. It presents both basic and clinically-relevant knowledge on alopecic disease in animals. This text is a one-of-a-kind resource providing cutting-edge coverage of the physiology and pathology of hair follicles. Disease-specific chapters include: a detailed description of the disease entity, etiology, pathogenesis, clinical and histopathological diagnosis and treatment modalities.
