25th Annual Conference on Composites, Advanced Ceramics, Materials, and Structures - B, Volume 22, Issue 4

Mrityunjay Singh (Editor), Todd Jessen (Editor)

E-Book	978-0-470-29515-1	September 2009	\$60.99
O-Book	978-0-470-29470-3	March 2008	Available on Wiley Online Library

DESCRIPTION

This volume is part of the Ceramic Engineering and Science Proceeding (CESP) series. This series contains a collection of papers dealing with issues in both traditional ceramics (i.e., glass, whitewares, refractories, and porcelain enamel) and advanced ceramics. Topics covered in the area of advanced ceramic include bioceramics, nanomaterials, composites, solid oxide fuel cells, mechanical properties and structural design, advanced ceramic coatings, ceramic armor, porous ceramics, and more.

ABOUT THE AUTHOR

Mrityunjay Singh, PhD, FASM, FACerS, FAAAS, is Chief Scientist at Ohio Aerospace Institute, NASA Glenn Research Center. He is actively involved in various activities related to processing, manufacturing, joining and attachment technologies. Singh is Academician of World Academy of Ceramics and Governor of Acta Materialia, Inc. He has authored or coauthored more than two hundred thirty publications, edited forty two books/journal volumes, and holds several patents and technology transfers to industries. He is recipient of numerous national and international awards from all over the world including four R&D 100 awards, NASA Public Service Medal, and NASA Exceptional Space Act Award for outstanding and extraordinary contributions to various NASA programs.
