Commodity Modeling and Pricing provides extensions and applications of state-of-the-art methods for analyzing resource commodity behavior. Drawing from the seminal work of Professor Walter Labys on the development of econometric methods for forecasting commodity prices, this collection of essays features expert contributors ranging from practitioners in private industry, public sector, and nongovernmental organizations to scholars in higher education—all of whom were Labys's former students or collaborators. Filled with in-depth insights and expert advice, Commodity Modeling and Pricing contains the information you need to excel in this demanding environment.

ABOUT THE AUTHOR

Peter Schaeffer is Professor of Economic Policy at West Virginia University and served as a director of the Division of Resource Management, which includes the Division of Agricultural and Resource Economics, from 1993 to 2006. He was a visiting professor of regional and environmental economics at the Swiss Federal Institute of Technology, Zurich, and a visiting scholar at the International Labour Organization in Geneva.
