DESCRIPTION

Featuring the improved format used in the 5th edition, this updated set presents, in logical groupings, comprehensive toxicological data for industrial compounds, including CAS numbers, physical and chemical properties, exposure limits, and biological tolerance values for occupational exposures, making it essential for toxicologists and industrial hygienists. This edition has about 40% new authors who have brought a new and international perspective to interpreting industrial toxicology, and discusses new subjects such as nanotechnology, flavorings and the food industry, reactive chemical control to comprehensive chemical policy, metalworking fluids, and pharmaceuticals.

ABOUT THE AUTHOR

Eula Bingham, PhD, is Professor of Environmental Health, University of Cincinnati College of Medicine. Dr. Bingham was the University of Cincinnati’s Vice President and University Dean for Graduate Studies and Research from 1982-1990. She was Assistant Secretary of Labor for Occupational Safety and Health (OSHA) from 1977-1981. She contributed more than one hundred peer reviewed articles on occupational and environmental respiratory hazards; chemical carcinogenesis and related topics; and occupational and environmental health policy.

Barbara Cohrssen is President of Cohrssen Environmental, Inc. and is a Certified Industrial Hygienist and Registered Environmental Assessor. She co-edited the 6th Edition of Patty’s Toxicology and Patty’s Industrial Hygiene and is a recognized
authority in the field of industrial hygiene. She has over 30 years of experience in occupational and environmental health and safety. In addition, Ms. Cohrssen is a member of the American Industrial Hygiene Association (AIHA), American Conference of Governmental Industrial Hygienists (ACGIH), and American Academy of Industrial Hygiene (newsletter editor since 1994).
