Two Microsoft Access MVPs show how you can become an Access power user

- Microsoft Access is the world’s leading database system, with millions of users and hundreds of thousands of developers. The best practices, tips, and techniques in this book can turn users into power users.

- Millions of eager users make Access the most popular database system in the world

These Microsoft MVPs exploit key features in Access, providing advice on techniques for capturing, sharing and reporting Access data.

- Each tip provides detailed solutions with clear instructions for implementation, and samples of all can be found on the companion Web site

*Access 2010 Solutions* offers professional advice that enables every Access user to get greater value from the Access database system.
ABOUT THE AUTHOR

Arvin Meyer is Chief Database Architect at Data Strategies and a 10-year Microsoft MVP. He also performs Webmaster duties for The Access Web (www.mvps.org/access), the major Access FAQ resource in the world with over 35,000 hits daily. He is one of the technical editors of Microsoft Access Small Business Solutions, published by Wiley.

Douglas J. Steele has been an Access MVP since 1999. He has written about Access for Smart Access magazine, Advisor Media, and Database Journal, and is technical editor for the Access 2010 Bible, published by Wiley.
