

Student Solutions Manual to accompany Calculus: Multivariable 2e

Brian E. Blank, Steven G. Krantz

Paperback

978-0-470-64724-0

September 2011

\$59.95

DESCRIPTION

A student manual for multivariable calculus practice and improved understanding of the subject *Calculus: Multivariable Student Solutions Manual* provides problems for practice, organized by specific topics, such as Vectors and Functions of Several Variables. Solutions and the steps to reach them are available for specific problems. The manual is designed to accompany the *Multivariable: Calculus* textbook, which was published to enhance students' critical thinking skills and make the language of mathematics more accessible.

ABOUT THE AUTHOR

Brian Erf Blank is an associate professor of mathematics at Washington University in St. Louis. He received his Ph.D. in 1980 at Cornell University, with Anthony Knapp as advisor. His 20th century work involved harmonic analysis. Steven George Krantz is an American scholar, mathematician, and writer. He has authored more than 235 research papers and more than 125 books. Additionally, Krantz has edited journals such as the *Notices of the American Mathematical Society* and *The Journal of Geometric Analysis*.
