**DESCRIPTION**

From an expert editor team drawn from the Cochrane Neurological Network, Evidence-Based Neurology provides specialists and those in training with the skills and knowledge to apply evidence-based practice in the clinical setting.

- fills the gap between guidelines and primary studies as well as between primary and secondary scientific medical literature
- summarizes the most recent and important findings on treatments for neurological patients
- measures the benefit and, when applicable, the risk of harm inherent in specific neurological interventions
- now includes new non-clinical topics of interest to neurologists such as education and research

**ABOUT THE AUTHOR**

Bart M. Demaerschalk, MD, MSc, FRCP(C), Professor of Neurology, Department of Neurology, Mayo Clinic, College of Medicine, Phoenix, AZ, USA

Dean M. Wingerchuk, MD, MSc, FRCP(C), Professor of Neurology, Department of Neurology, Mayo Clinic College of Medicine, Scottsdale, AZ, USA
