DESCRIPTION

A unique textbook in cardiovascular emergencies

Cardiovascular Problems in Emergency Medicine takes you on rounds with the leading teachers of emergency medicine. Transcripts of in-depth telephone conferences on 27 real-life cardiovascular cases provide a unique and fascinating insight into the way complex cases are diagnosed and managed by some of the most experienced and respected practitioners in the field.

Each chapter is then complemented by an authoritative, fully-referenced review of the current literature on the topic.

With its unique approach, and the range of cases covered, Cardiovascular Problems in Emergency Medicine is an invaluable source of information for all emergency physicians, both qualified and in training.
