Non-Alcoholic Fatty Liver Disease: A Practical Guide
Geoffrey C. Farrell (Editor), Arthur J. McCullough (Editor), Christopher P. Day (Editor)

February 2013 $137.99

Hardcover ISBN: 978-0-470-67317-1
April 2013 $171.50

March 2013

DESCRIPTION

The sharp rise in cases of Non-alcoholic fatty liver disease is fast becoming one of the major concerns for hepatologists worldwide. This comprehensive clinical guide explains how to diagnose NAFLD and manage patients according to the best standards of care. Contributors from the world's leading institutions concentrate on patient care, drawing on their extensive experience.

ABOUT THE AUTHOR

Geoff Farrell, Professor of Hepatic Medicine, Director of Gastroenterology, The Canberra Hospital, Australia

Geoffrey Farrell graduated MB BS from the University of Tasmania in 1970, and trained in gastroenterology and hepatology at the Royal Prince Alfred and Royal Brisbane Hospitals, the latter with Lawrie Powell with whom he completed an MD on hepatic drug metabolism. He was awarded an NHMRC CJ Martin Fellowship to conduct post-doctoral research in UCSF, and in 1980 returned to Sydney to establish a Liver Research Group at Westmead Hospital. He was promoted to a personal chair in 1993, then accepted the Storr Chair in Hepatic Medicine. He remained Director of the Storr Liver Unit until Jan 2006, when he accepted the position as Professor of Hepatic Medicine with ANU Medical School and Director of Gastroenterology and Hepatology at The Canberra Hospital. He has held many leadership roles in medical research, gastroenterology, editorial boards, and academic medicine, including Editor-in-Chief of Journal of Gastroenterology and Hepatology since November 2006.
Geoff Farrell's research interests are in non-alcoholic steatohepatitis, viral hepatitis, drug-induced liver injury, and liver regeneration. He has published 3 books, including the first on non-alcoholic fatty liver disease, and written more than 180 scientific papers and 100 reviews/chapters and editorials in the fields of hepatology and biochemical pharmacology. His work is very highly cited, with an H-index of 50, more than 20 articles cited &gt;100 times, average citation 32 per paper, and 15 articles being the subject of editorials in major medical journals. He is CIA on an NHMRC Program Grant to study the molecular and cellular basis of liver disease, and has recently held a Centre for Clinical Research Excellence Program grant to improve outcomes for patients with liver disease.

Arthur McCullough, Department Chair of Gastroenterology and Hepatology, Cleveland Clinic, USA

Arthur McCullough, MD, is Department Chair of Gastroenterology and Hepatology and a Staff Physician in the Department of Pathobiology and Transplantation Center at Cleveland Clinic. He was appointed in 2006. He attended medical school at SUNY Health Science Center at University Hospital of Syracuse, N.Y. He completed his internship and residency at Cleveland Clinic and a fellowship at Mayo Clinic in Rochester, Minn.

He is one of the most senior hepatologists in the United States and is the current President of the American Association for the Study of Liver Diseases. Other significant achievements are: Best Doctor's in America: "Midwest Region" annually from 1996-2008; Chair of the NIH-funded Clinical Research Network on Fatty Liver Disease (federal funding); NIH Grant on Omega 3 Fatty Acids in Diabetes (federal funding); New Novel Agents for Hepatitis C Patients who failed to respond to previous therapy (non-federal funding)

Christopher Day, Pro-Vice-Chancellor for the Faculty of Medical Sciences, Professor of Liver Medicine and Consultant Hepatologist, School of Clinical Medical Sciences, Newcastle University, UK

Chris Day qualified from Cambridge University in 1983 and subsequently trained in General Medicine and Hepatology at Newcastle, becoming Consultant Hepatologist in the Liver Unit at Newcastle's Freeman Hospital in 1994 and Professor of Liver Medicine at University of Newcastle University in 2000. He was formerly Head of the School of Clinical Medical Sciences at the University and since April 2008 has been Pro-Vice-Chancellor of the Faculty of Medical Sciences. Professor Day's research interests focus largely on fatty liver disease related both to obesity and to alcohol, with additional interests in drug-induced liver injury and liver fibrosis. His work has been funded by the MRC and the Wellcome Trust and he is a former MRC Clinical Training Fellow and Clinician Scientist Fellow. In 1999 he was the Goulstonian Lecturer of the Royal College of Physicians and in 2000 was awarded the research gold medal of the British Society of Gastroenterology. He is a Fellow and Councillor of the Academy of Medical Sciences, an Executive Member of the Medical Schools Council and an NIHR Senior Investigator. He is also Chief Editor of the Journal of Hepatology, and is on both the Populations and Systems Medicine Board and the Translational Stem Cell Research Committee of the Medical Research Council.
