Evidence-Based Cardiology, 2nd Edition
Salim Yusuf (Editor), John A. Cairns (Editor), A. John Camm (Editor), Ernest L. Fallen (Editor), Bernard J. Gersh (Editor)

DESCRIPTION
This second edition is a ground-breaking clinical text with a strong emphasis on rigorous evidence. Leaders in the field discuss best practice in the light of systematic reviews and randomised control trials, and how best to treat where the information is less clear. Case histories provide intriguing discussions on how to apply the evidence in real life situations.

Evidence-based Cardiology also includes free access to the latest evidence, which is automatically posted on a companion website.

ABOUT THE AUTHOR
Salim Yusuf, OC FRSC is an Indian-born Canadian physician, the Marion W. Burke Chair in Cardiovascular Disease at McMaster University Medical School. He is a cardiologist and epidemiologist.

John A. Cairns, Dean, Faculty of Medicine, University of British Columbia.
