

Practical Genetics for Aquaculture

C. Greg Lutz

E-Book	978-0-470-99982-0	April 2008	\$151.99
Hardcover	978-0-852-38285-1	October 2001	\$189.25
O-Book	978-0-470-99983-7	January 2008	Available on Wiley Online Library

DESCRIPTION

Over recent years there have been major advances in the application of molecular, biotechnological and genetic techniques to a wide range of aquatic species. Until now, many working in a hands-on capacity in the area of aquaculture have not known what the benefits of this work could be to them. This important new book redresses this situation, providing clear details of the available scientific information and the direct application of techniques under simple and practical situations.

ABOUT THE AUTHOR

C. Greg Lutz is Specialist and Professor of Aquaculture with Louisiana State University, Baton Rouge, Louisiana, USA.

FEATURES

*essential information for anyone involved in fish/invertebrate aquaculture.

*practically-orientated, user-friendly presentation

*author has many years' hands-on experience.
