Sample Survey Methods and Theory, Volume 2: Theory
Morris H. Hansen, William N. Hurwitz, William G. Madow

DESCRIPTION
A general purpose work on sampling method and theory. Volume 1 gives a simple, non-mathematical discussion of principles and their practical applications. Volume 2 covers theory and proofs.

ABOUT THE AUTHOR
Morris Howard Hansen was an American statistician. While at the United States Census Bureau, he was one of the first to develop methods for statistical sampling and made contributions in many areas of surveys and censuses.
