Water Desalting Planning Guide for Water Utilities
AWWA (American Water Works Association)

Hardcover 978-0-471-47285-8 March 2004 Print-on-demand $171.50

DESCRIPTION

Written by a select group of industry experts, under the supervision of the leading organization in water utilities, AWWA, this reference is the first practical guide to water desalination systems. Desalination is the process used to remove dissolved salts from seawater or highly-mineralized waters so that the water becomes usable for human and/or agricultural and industrial usage. This book offers authoritative guidance on the planning, design, and implementation of a successful water desalination system for public water utilities.

ABOUT THE AUTHOR

Founded in 1881, the AMERICAN WATER WORKS ASSOCIATION (AWWA) is the authoritative resource for knowledge, information, and advocacy to improve the quality and supply of drinking water in North America and beyond. The AWWA is the largest organization of water professionals in the world. The AWWA advances public health, safety, and welfare by uniting the efforts of the full spectrum of the drinking water community.
