**DESCRIPTION**

A text/reference regarding the structure and function of components used in perfume development and the process of developing perfumes. Covers gas chromatography, mass spectrometry and a host of other analytical techniques; the esthetics and techniques of perfume development; the manifold and ever-changing safety-related requirements of countries and customers; concerns about the environmental impact of materials and impurities which affect the perfumer's work.

**ABOUT THE AUTHOR**

Robert R. Calkin and J. Stephan Jellinek are the authors of Perfumery: Practice and Principles, published by Wiley.
