

A Textbook of Modern Toxicology, 3rd Edition

Ernest Hodgson (Editor)

O-Book

978-0-471-64677-8

March 2004

**Available on Wiley
Online Library**

DESCRIPTION

Toxicology is the science of poisons, embracing the physical and chemical study of all the known poisonous substances, as well as the methods of testing for them, their action on the living body, and the postmortem results they occasion. The Third Edition of this benchmark text once again proves the most authoritative resource on the subject for both students and practicing professionals.

ABOUT THE AUTHOR

ERNEST HODGSON, PhD, has been a professor at North Carolina State University since 1961. He currently serves as the William Neal Reynolds Professor of Toxicology.
