Design Innovations for Aging and Alzheimer's: Creating Caring Environments

Elizabeth C. Brawley

Hardcover  978-0-471-68118-2  December 2005  $119.50

DESCRIPTION

As our understanding of aging and Alzheimer’s, and the cultural changes related to these phenomena, grows so do the implications for interior design. Focus on recent innovations in care environments for the aging with a resource dedicated to this topic. This comprehensive book features:

• Coverage of the emerging building types of adult day care and hospice and the increased use of gardens and outdoor space in environments for the aging.

• Material on sustainable design and environmentally friendly building products.

• Design solutions that extend beyond assisted-living facilities and nursing homes as they can be easily adapted for residential use.

• Photographs, line drawings, and a 16-page color insert that bring the material to life.

ABOUT THE AUTHOR

ELIZABETH C. BRAWLEY, IIDA, AAHID, is President of Design Concepts Unlimited, a San Francisco-based firm that specializes in designing living environments for older people and settings for Alzheimer’s special care. She is a past member of the national board of directors for the Alzheimer’s Association and has gained international recognition as an expert and industry leader in the
area of environmental design for aging. She is the author of Designing for Alzheimer's Disease: Strategies for Creating Better Care Environments (Wiley), which was awarded the Joel Polsky Prize by the American Society of Interior Designers in recognition of her outstanding contribution in the area of research in environment and Alzheimer's disease.
