The Chemistry of Organic Silicon Compounds, Volume 2, Parts 1, 2, and 3 (3 Part Set)
Zvi Rappoport (Editor), Yitzhak Apeloig (Editor), Saul Patai (Series Editor)

E-Book 978-0-470-86649-8 November 2000 $3,090.99
Hardcover 978-0-471-96757-6 September 1998 Out of stock $3,863.50

DESCRIPTION

Organosilicon compounds are key organometallic compounds (R-Si) which have many uses in materials science and in metallurgy. Their applications include the synthesis of sugars and in the synthesis of organic compounds for the pharmaceutical industry. This volumewill contain both updated chapters on key topics included in the original volumes as well as a number of new chapters reflecting rapid developments made in silicon chemistry and its applications to organometallic chemistry, materials science, and semiconductors, over the last five years. As for the majority of volumes in this series, chapters will be prepared by leading scientists in the field.

This volume is now available in electronic format from BooksOnline.

ABOUT THE AUTHOR

Professor Zvi Rappoport, Department of Organic Chemistry, The Hebrew University of Jerusalem, Jerusalem, Israel.

Professor Saul Patai founded the Patai Series.
SERIES

Patai's Chemistry of Functional Groups
