Principles and Practice of Soil Science: The Soil as a Natural Resource, 4th Edition

Robert E. White

E-Book 978-1-118-68573-0 May 2013 $86.99
Paperback 978-0-632-06455-7 October 2005 $108.00

DESCRIPTION

Principles and Practice of Soil Science, Fourth Edition provides a current and comprehensive introduction to soil science for students in the fields of environmental and agricultural science, ecology, soil and land management, natural resource management and environmental engineering.

- Covers all aspects of soil science including soil habitat, processes in the soil environment and soil management.
- Emphasizes the applications of soil science to the solution of practical problems in soil and land management.
- Highlights real world examples drawn from the author's international experience in the field.
- Includes an expanded colour section of soil profiles and other features, and greater coverage of international soil classification
- Features new problem sets and questions at the end of each chapter, designed to reinforce important principles. An answer key is provided at the end of the text.

Artwork from the book is available to instructors online at www.blackwellpublishing.com/white
ABOUT THE AUTHOR

Robert White holds degrees from the University of Queensland and the University of Oxford. He has extensive international experience in Australia, Southern Africa, England, New Zealand, China and the USA, focusing on soil, water and nutrient management in broad-acre cropping, grazing systems and vineyards for wine production. He is Emeritus Professor of Soil Science at the University of Melbourne and author of Soils for Fine Wines.
