DESCRIPTION

The definitive and only book in the world which deals exclusively with clinical research misconduct, recognising that - although it is not rife - its occurrence at all requires recognition and action.

ABOUT THE AUTHOR

Stephen Lock and Frank Wells are the authors of Fraud and Misconduct: in Biomedical Research, 3rd Edition, published by Wiley.

FEATURES

There is no other book covering this subject comprehensively anywhere else in the world.

Includes additional chapter from the USA and the Western Editor of JAMA.

Updated with new cases from the UK and elsewhere and all the chapters still included have been revised.

New chapter from whistleblower and dealing with notes of research ethics committees.
