Unrecognized states are places that do not exist in international politics; they are state-like entities that have achieved de facto independence, but have failed to gain widespread international recognition. Since the Cold-War, unrecognized states have been involved in conflicts over sovereign statehood in the Balkans, the former Soviet Union, South Asia, the Horn of Africa, and the South Pacific; some of which elicited major international crises and intervention, including the use of armed force.

Yet they remain subject to many myths and simplifications. Drawing on a number of contemporary and historical cases, from Nagorno Karabakh and Somaliland to Taiwan, this timely new book provides a comprehensive analysis of unrecognized states. It examines their origins, the factors that enable them to survive and explores their likely future trajectories. But it is not just a book about unrecognized states; it is a book about sovereignty and statehood; one which does not shy way from addressing crucial issues such as how these anomalies survive in a system of sovereign states and how the context of non-recognition affects their attempts to build effective state-like entities.

Ideal for students and scholars of global politics, peace and conflict studies, *Unrecognized States* offers a much needed and engaging account of the development of unrecognized states in the modern international system.
ABOUT THE AUTHOR

Nina Caspersen is lecturer in peace and conflict studies at Lancaster University.

FEATURES

• The first truly comprehensive, thematically organized analysis of unrecognized states

• Carefully developed to offer students a balanced and insightful introduction to this important topic

• Draws on both contemporary and historical cases, situating them within a broader analysis of sovereignty and statehood in the modern international system

• Ideally suited to students and scholars working in international politics, peace, conflict and security studies
