Preparing Learners for e-Learning
George M. Piskurich (Editor)

Hardcover    ISBN: 978-0-787-96396-5    March 2003    $50.00

DESCRIPTION

Designed for anyone charged with making e-learning really work, Preparing Learners for e-Learning presents a variety of methods business organizations and educational institutions can use to prepare their learners to become successful e-learners. This first-of-its-kind book helps trainers, designers, and educators understand the importance of enhancing self-directedness in learners as they prepare for e-learning and the various learning theories that can be used for this purpose. It then guides e-learning professionals through the process of creating interventions--specific to their own individual situations--that will assist their learners in preparing for the move to an e-learning environment.

ABOUT THE AUTHOR

George M. Piskurich is a consultant whose areas of expertise include learning in systems design, and management development. His projects include designing e-learning and self-directed learning programs for international companies. He is the former director of training and development for REVCO, former director of training and development for Mount Sinai Medical Center, and a former professor at North Carolina State University. He is the author of numerous books including Instructional Design (Pfeiffer) and Self-Directed Learning: A Practical Guide to Design (Jossey-Bass).
