Anaesthesia
Edited By: Dr A. A. Klein; Cambridge; UK

DESCRIPTION

Anaesthesia is the official journal of the Association of Anaesthetists of Great Britain and Ireland and is international in scope and comprehensive in coverage. It publishes original, peer-reviewed articles on all aspects of general and regional anaesthesia, intensive care and pain therapy, including research on equipment. Although primarily a clinical journal, we welcome submissions or basic science papers if the authors can demonstrate their clinical relevance. The median time from submission to first decision is 12 days. There is also an active online correspondence website, where you can post and read article-related correspondence.

Click here to view all issues of Anaesthesia dating back to 1946 (volume 1, issue 1) plus the latest issue, news and features.
