Clinical and Experimental Neuroimmunology
Edited By: Hiroyuki Murai

DESCRIPTION

Clinical and Experimental Neuroimmunology is an international journal sponsored by the Japanese Society for Neuroimmunology and affords a medium for the prompt publication of studies on all areas of clinical and experimental neuroimmunology. It also covers neuroscience, basic immunology, clinical neurology and neurovirology, if the subject matter is targeting the interface between neuroscience and immunology or is relevant for optimizing treatment of neuroimmunological disorders including multiple sclerosis, polymyositis/dermatomyositis, myasthenia gravis, Guillain-Barré syndrome and chronic inflammatory demyelinating polyneuropathy.

The journal aims to encourage the international exchange of results and encourages authors from all countries to submit in the following six categories: Original Articles, Case Reports, Reviews, Commentaries, Editorials, and Letters to the Editor.

Author guide is available via online submission site at: http://mc.manuscriptcentral.com/ceni
