Microsoft Flight Simulator X For Pilots: Real World Training
Jeff Van West, Kevin Lane-Cummings

DESCRIPTION

Get ready to take flight as two certified flight instructors guide you through the pilot ratings as it is done in the real world, starting with Sport Pilot training, then Private Pilot, followed by the Instrument Rating, Commercial Pilot, and Air Transport Pilot. They cover the skills of flight, how to master Flight Simulator, and how to use the software as a learning tool towards your pilot's license. More advanced topics demonstrate how Flight Simulator X can be used as a continuing learning tool and how to simulate real-world emergencies.

ABOUT THE AUTHOR

Jeff Van West is a certified flight instructor in both single and multi-engine aircraft and editor of the professional pilot magazine IFR. He has written training curricula for both computer simulation and general aviation programs.

Kevin Lane-Cummings is a pilot, flight instructor, educator, and technical communication professional. He has worked for aerospace megacorporations, science museums, flight schools, public TV stations, and Internet publishers.
