DESCRIPTION

In A Brief History of Modern Psychology, 2nd Edition, Ludy Benjamin, leading historian in the field, discusses the history of both the science and the practice of psychology since the establishment of the first experimental psychology laboratory in 1879.

ABOUT THE AUTHOR

Ludy T. Benjamin, Jr. is Professor of Psychology and Educational Psychology at Texas A&M University and is holder of the Glasscock Professorship and a Presidential Professorship in Teaching Excellence. His numerous publications include From Séance to Science: A History of the Profession of Psychology in America (with David Baker, 2004) and A History of Psychology in Letters (second edition 2006, Blackwell).

NEW TO EDITION

- Much new material has been added to this edition, reflecting the growing scholarship on the history of psychology and related fields.

- To accommodate these additions and still keep the book in its brief form, the amount of biographical coverage have been reduced. However, the biographical content necessary to provide context to understanding the theories, research, and practices described in this book has been maintained.

FEATURES

- Captures the excitement of this pervasive field that features prevalently in modern mass media

- Presents facts and interesting tidbits about individual psychologists’ lives and ideas, as well as illuminating tie-in’s to the social contexts in which they lived

- Features widely known figures such as William James, Carl Jung, Wilhelm Wundt, G. Stanley Hall, James Catell, John B. Watson, and B.F. Skinner as well as lesser known luminaries such as E.B. Titchener, Mary Calkins, Leta Hollingworth, Kenneth and Mamie Clark, and Helen Thompson Wolley

- Provides the historical and disciplinary context that will help readers to better understand the richness and complexity of contemporary psychology

- Includes discussions of important events, societies, and landmarks in the history of psychology such as the growth of psychological laboratories in the US, the Thayer Conference (the landmark summit which defined school psychology), Kurt Lewin’s social action research, and Lewis M. Terman and the Stanford Revision of the Binet-Simon Scale (now the well-known, “Stanford-Binet Intelligence Scale”)
