Pepall's *Industrial Organization: Contemporary Theory and Empirical Applications, 5th Edition* offers an accessible text in which topics are organized in a manner that motivates and facilitates progression from one chapter to the next. It serves as a complete, but concise, introduction to modern industrial economics.

The text uniquely uses the tools of game theory, information economics, contracting issues, and practical examples to examine multiple facets of industrial organization. The fifth edition is more broadly accessible, balancing the tension between making modern industrial analysis accessible while also presenting the formal abstract modeling that gives the analysis its power. The more overtly mathematical content is presented in the Contemporary Industrial Organization text (aimed at the top tier universities) while this *Fifth Edition* will less mathematical (aimed at a wider range of four-year colleges and state universities).

### ABOUT THE AUTHOR

**Lynne Pepall** is Professor of Economics and Dean of the Graduate School of Arts and Sciences at Tufts University. Professor Pepall received her undergraduate degree in mathematics and economics from Trinity College, University of Toronto, and her Ph.D. in economics from Cambridge University in England. She has written numerous papers in industrial organization, appearing in the *Journal of Industrial Economics, International Journal of Industrial Organization, Journal of Economics and Management Strategy, Economic Journal, Canadian Journal of Economics, Economica*, and the *American Journal of Agricultural Economics*. 
She has taught industrial organization and microeconomics at both the graduate and undergraduate levels, at Tufts University since 1987. Professor Pepall lives in Newton, Massachusetts, with her two sons, a dog, three rabbits, and her husband, a co-author of this book.

Dan Richards is Professor of Economics at Tufts University. Professor Richards received his A.B. in economics and history from Oberlin College and his Ph.D. in economics from Yale University. Professor Richards has written numerous articles in both macroeconomics and industrial organization, appearing in the American Economic Review, Quarterly Journal of Economics, Journal of Industrial Economics, Economica, the B. E. Journals in Economic Analysis and Policy, Canadian Journal of Economics, the Journal of Money, Credit, and Banking, and the American Journal of Agricultural Economics. He came to Tufts in 1985 and has taught at both the graduate and undergraduate levels. He served as Director of the Graduate Program in Economics from 1989 through 1998, and has also served as a consultant to the Federal Trade Commission. From 1996 to 2005 he taught in the Sloan Fellows Program at MIT’s Sloan School of Management. Professor Richards lives in Newton, Massachusetts, with his two sons, a dog, three rabbits, and his wife, a co-author of this book.

George Norman holds the William and Joyce Cummings Family Chair of Entrepreneurship and Business Economics at Tufts University. He came to Tufts in 1995 from Edinburgh University, where he had served as head of the department of economics. Prior to that, Professor Norman was the Tyler Professor of Economics at the University of Leicester (England). Professor Norman attended the University of Dundee (Scotland) where he was awarded the M.A. in economics with first class honors. He received his Ph.D. in economics from Cambridge University. His more than 70 published articles have appeared in such professional journals as the American Economic Review, Review of Economic Studies, Quarterly Journal of Economics, Journal of Industrial Economics, and International Journal of Industrial Organization. He is currently an Associate Editor for two journals, the Bulletin of Economic Research and Regional Science and Urban Economics. He is also on the editorial board of the B.E. Journals in Economic Analysis and Policy. In addition to this book, Professor Norman has written and edited, either alone or in collaboration with others, 17 other books. Professor Norman has taught courses in industrial organization and microeconomic theory at both the graduate and undergraduate levels. He has also taught introductory economics, corporate strategy, international economics, and entrepreneurship. Professor Norman lives in Newbury, Massachusetts, with his wife Margaret who, while not a co-author, has provided invaluable support and assistance in his work on this book.
