## DESCRIPTION

*Lecture Notes: Clinical Pharmacology and Therapeutics* provides all the necessary information, within one short volume, to achieve a thorough understanding of how drugs work, their interaction with the body in health and disease, and how to use these drugs appropriately in clinical situations.

Presented in an easy-to-use format, this eighth edition builds on the clinical relevance for which the title has become well-known, and features an up-to-date review of drug use across all major clinical disciplines, together with an overview of contemporary medicines regulation and drug development.

Key features include:

- A section devoted to the practical aspects of prescribing
- Clinical scenarios and accompanying questions to contextualise information
- End-of-chapter summary boxes
- Numerous figures and tables which help distil the information for revision purposes

Whether you need to develop or refresh your knowledge of pharmacology, *Lecture Notes: Clinical Pharmacology and Therapeutics* presents 'need to know' information for those involved in prescribing drugs.
