This is the first volume exclusively devoted to research methods in language policy and planning (LPP).

- Each chapter is written by a leading language policy expert and provides a how-to guide to planning studies as well as gathering and analyzing data.
- Covers a broad range of methods, making it easily accessible to and useful for transdisciplinary researchers working with language policy in any capacity.
- Will serve as both a foundational methods text for graduate students and novice researchers, and a useful methodological reference for experienced LPP researchers.
- Includes a series of guidelines for public engagement to assist scholars as they endeavor to incorporate their work into the public policy process.
