Technology for Facility Managers: The Impact of Cutting-Edge Technology on Facility Management
IFMA, Eric Teicholz (Editor)

Hardcover  ISBN: 978-1-118-38283-7  October 2012  $93.50

DESCRIPTION

From BIM (building information modeling) to RFID (radio frequency identification) to BAS (building automation and control systems), facility managers of today's commercial buildings are often asked to work with a variety of technologies without any experience in IT. This new book is a welcome primer for facility managers and engineers. Each chapter covers a different technology and includes specific and helpful case studies. Authored by the International Facility Management Association (IFMA), this unique resource is also a practical textbook for candidates studying for IFMA certification.

ABOUT THE AUTHOR

The International Facility Management Association (IFMA) is the world's largest and most widely recognized international association for professional facility managers, supporting more than 20,000 members in seventy-eight countries.
