The Handbook of International Crisis Communication Research articulates a broader understanding of crisis communication, discussing the theoretical, methodological, and practical implications of domestic and transnational crises, featuring the work of global scholars from a range of sub-disciplines and related fields.

• Provides the first integrative international perspective on crisis communication

• Articulates a broader understanding of crisis communication, which includes work from scholars in journalism, public relations, audience research, psychology, political science, sociology, economics, anthropology, and international communication

• Explores the topic from cross-national and cross-cultural crisis communication approaches

• Includes research and scholars from countries around the world and representing all regions

• Discusses a broad range of crisis types, such as war, terrorism, natural disasters, pandemic, and organizational crises
